

Penn
Master of Behavioral
and Decision Sciences

Learn the theory, apply the tools, and make a difference

Penn's Master of Behavioral and Decision Sciences (MBDS) program equips students with theoretical and practical tools to understand how individuals and groups make decisions, how to affect those decisions, and how social norms play a role in motivating and changing social behaviors. Led by world-renowned faculty, researchers, and practitioners, the MBDS program creates unique opportunities for students to engage with an exceptional advisory board, apply tools and knowledge in our annual Design Challenge, and pursue independent, cross-disciplinary research throughout Penn.

Meet our alumni:

"I loved learning tools and techniques to evaluate what people were saying and translate that into opportunities for the client. The [capstone] was a really exciting project. I never worked in the digital mental health space before. Having those opportunities to gain insight into different industries has helped me become a chameleon and learn to speak the languages of different clients."

Kathryn Ambroze, MBDS '22

Senior User Researcher, JPMorgan Chase & Co.

"When I was accepted into the MBDS, it was a meant-to-be moment. I felt like there was a link between me and the program. I could take the time to explore behavioral science in an academic setting. Some people love commercial spaces, some want to go into consulting, some people are really into research. I realized health and health outcomes are definitely what I'm interested in, personally and in my career."

Yuzhen (Valerie) Guo, MBDS '22

Behavioral Designer, Lirio, LLC

"One of the amazing things about Penn is that the faculty you work with are heavily involved in research—they're very much at the forefront of their field, so you can take part in a lot of research if you want to. Once I was done with the first project, there were other professors who needed help with different projects."

Max Spohn, MBDS '20

PhD candidate, Harvard Kennedy School of Government

Penn
Master of Behavioral
and Decision Sciences

Meet the Master of Behavioral and Decision Sciences program's founding director

Cristina Bicchieri

Founding Director, Master of Behavioral and Decision Sciences

S. J. Patterson Harvie Chair

Professor of Philosophy, Psychology and Legal Studies (Wharton)

*"Wherever there
is a human
group there are
social norms."*

-Cristina Bicchieri

Cristina Bicchieri is a world authority on social norms and has consulted with UNICEF, the World Bank, the Gates Foundation, the United Kingdom's Department for International Development, and many other organizations. She is the founder of the Master of Behavioral and Decision Sciences program and the Center for Social Norms and Behavioral Dynamics, a major research center at Penn that aims to support positive behaviors on a global scale. Cristina is the author of over 100 articles and seven books.

Unparalleled connections, exceptional opportunities

A defining feature of the University of Pennsylvania's Master of Behavioral and Decision Sciences program (MBDS) is its network of outstanding industry and research partners who help bring students exceptional practical experiences.

Meet the MBDS Advisory Board:

Charlotte Blank

*Director, Transformation & Analytics, Jaguar Land Rover
North America*

Claire Hobden

*Specialist on Vulnerable Workers, Domestic Work, International
Labour Organization*

Jeff Kreisler

*Head of Behavioral Science for JP Morgan Private Bank and
Founding Editor of PeopleScience.com*

Pavan Mamidi, PhD

*Director of the Centre for Social and Behaviour Change (CSBC),
Ashoka University*

Namika Sagara, PhD

*Co-Founder, Chief Behavioral Officer and Head of Consulting,
Syntoniq*

Neela Saldanha

*Executive Director, Yale Research Initiative on Innovation and Scale
(Y-RISE), Yale University*

Carlos Scartascini

*Head, Development Research Group, IDB Behavioral
Economics Group*

Greg Schwartz

Practice Lead – Healthcare Predictive Modeling, Deloitte Consulting

Piyush Tantia

Chief Innovation Officer, ideas42

Renos Vakis, PhD

Lead Economist, the Poverty and Equity Global Practice

Chiara Varazzani, PhD

*Lead Behavioral Scientist, Organisation for Economic Cooperation
and Development (OECD - OCDE)*

Scott Young

*Principal Advisor, Head of Private Sector, the Behavioural Insights
Team (BIT) North America*

Allison Zelkowitz

*Founder and Director, Center for Utilizing Behavioral Insights for
Children (CUBIC) at Save the Children International*

The MBDS Design Challenge

Every spring, the Master of Behavioral and Decision Sciences (MBDS) program organizes the Design Challenge, where our students partner with MBDS Industry Affiliates to apply cutting-edge knowledge from the fields of behavioral economics, decision sciences, network analysis, and public policy to solve real-life problems. We welcome world-leading clients in industries like health, wellness, sustainability, technology integration in marketing, and finance to collaborate with our students and provide guidance on solving the world's toughest challenges.

In the Design Challenge, MBDS students work to translate academic research, theoretical foundations, and applied frameworks into actionable insights toward a client-focused problem. At the end of the Challenge, students present their proposed solutions to the client's senior management and leadership.

The Design Challenge is an invaluable opportunity for our students to apply their MBDS education toward developing practical solutions while gaining real-world experience.

"Newristics has actually been a client for a couple of the Design Challenges. For many students who might be a little lighter on professional experience, the Design Challenge is a great way for them to talk about how they break down a challenge and use behavioral science to come up with a novel solution."

Michael Hayden II, MBDS '20

Consultant, MedTech & Applied Behavioral Insights
